MUSTAFA ABBAS

DATA ANALYST | BI SPECIALIST

eng.mustafaahmed10@gmail.com | 01098799596 | LinkedIn | Portfolio |Egypt-Naser city

SUMMARY

Business Intelligence and Data Analyst with proven experience in delivering end-to-end data solutions, from data preparation and modeling to advanced analytics and visualization. Adept at uncovering insights, optimizing performance, and supporting data-driven decision-making through interactive dashboards, forecasting, and customer analytics

PROFESSIONAL EXPERIENCE

Data analyst| We Lyra **Aug 2025 - May 2026**

- Collected, cleaned, and analyzed large datasets to identify trends, patterns, and business opportunities.
- Built dynamic dashboards and management reports using Excel, Pivot Tables, and DAX calculations.
- Designed KPIs and performance metrics to monitor sales, profitability, and operational efficiency.
- Conducted ad-hoc analysis and presented insights that supported strategic business decisions.
- Improved data quality through validation, transformation, and reconciliation processes.
- Streamlined reporting workflows and enhanced data accessibility for business stakeholder

PROJECTS

Sales Performance & Business Insights Dashboard | Power BI

- Developed an end-to-end interactive dashboard to analyze sales, profitability, and customer behavior using Power BI
- Built advanced DAX measures for KPIs including Net Sales, Profit Margin, CLV, and Discount Efficiency
- Performed time-series analysis and implemented forecasting models with What-if scenarios for business planning
- Applied RFM segmentation to classify customers (Champions, At Risk, Lost) and support retention strategies
- Conducted root cause analysis to identify underperforming regions and products
- Identified low discount efficiency (0.43), highlighting opportunities for pricing optimization and profitability improvement

SKILLS

- **Business Intelligence & Analytics:** Power BI (Advanced), Microsoft Excel (Advanced), SQL (Intermediate), KPI Development & Performance Analysis.
- **Data Analysis & Reporting:** Data Cleaning, Data Transformation (ETL), Data Validation, Data Interpretation, Business Reporting, Root Cause Analysis
- **Data Modeling & Visualization:** Star Schema Design, Data Modeling, Interactive Dashboard Development, Data Storytelling, Performance Tracking.
- **Programming & Query Languages:** Python, SQL (Joins, Subqueries, CTEs, Window Functions, Aggregations), DAX (Measures, Calculated Columns, Time Intelligence)
- **Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn.
  Database & Tools: SQL Server, PostgreSQL, Jupyter Notebook.

EDUCATION

Bachelor of Computer Science – Modern Academy, Cairo, Egypt **Sep 2019 - Sep 2023**

ADDITIONAL INFORMATION

- **Languages:** Arabic, English
- **Certifications:** Certified Data Analyst Professional-CDAP, Business Intelligence Certificate – Creativa ITI, Data Analytics Bootcamp – EYouth
- **Internship:** Data Science Intern | Orange Digital Center
